

# **OFFICIAL PUBLICATION OF THE GREATER HOUSTON HUNTER JUMPER ASSOCIATION**

Dear GHHJA members,

I hope that you all are finding ways to keep you and your horses cool during these hot summer month. To help beat the heat during the upcoming GHHJA shows at Great Southwest the outdoor hunter ring will instead be held in the east covered arena and the circulation fans in the main arena will be running full blast. In addition, the Life Is Good Cafe will definitely keep the cool beverages flowing. Make sure you join us for some summer showing fun!

There are a lot of upcoming GHHJA deadlines that will allow for you to make a difference in our organization. First of all, rule change proposals are due September 1st (see inside for more details). If you have a rule that you would like to change or add that would improve the GHHJA showing experience, make sure to get it in and have your voice heard. Furthermore, GHHJA Board Member applications/nominations are due October 1st. We will have multiple positions available and encourage you all to join us in leading our organization. Finally, make sure to save the date for our 2011 end of year banquet. This season's banquet will be held at the Northwest Forest Conference center on January 28th, 2012. The theme this year is "South of the Border", and it will be a fiesta you won't forget!

Best wishes to you all in all of your horsey endeavors this summer. I'm looking forward to seeing everyone at the shows! Please don't hesitate to contact us with any questions, concerns, or comments you have.

Sincerely,

Dev Branham

# County Saddlery

The best for backs

## Does saddle fit matter?

## Does your horse demonstrate any of the following?

- Objects to being saddled or girthed
- Poor ground manners/girth shy
- Inability to get the back up (inverted)
- Inability to flex (bend) at the pole
- Stumbling or tripping excessively
- Rushes or refuses fences
- Bucks after jumps
- Unable to travel straight
- Trouble with lead changes
- Resists collection work & transitions
- Ears pinned, tail swishing
- Sore back muscles
- Dry spots/white hairs

Almost all of these are signs of some degree of back pain and the majority of that back pain is directly related to a poorly fitting saddle.

## As a rider do you experience any of the following?

- You can't seem to keep your leg under you
- You fight to stay in balance
- You can never seem to please your instructor with your position
- You and your horse seem to fight against each other instead of working in harmony
- You experience your own back pain

## Why Choose County?

County Saddlery offers more designs and options than anyone else in the industry, ensuring the optimum fit for each horse and rider. County Saddles will allow your horse all of the features needed to allow him/her the biggest freedom of movement which will enhance the horses performance. Many of the world's top riders ride in County's and there is a reason why - County is the **Best for Backs** and can prove to you **That your horse is better than you think!**

## Suzanne Martin

Master Saddlers Association  
Certified Fitter  
Texas Representative for County  
Saddlery

713-299-2895

suzanne@countysaddlery.com  
www.saddles.com  
www.englishhorsesaddles.net

As a Master Saddlers Association certified fitter I can provide an on-site saddle fitting evaluation. This is for any type of horse with any type of saddle. I will provide you with an informed opinion as to if the saddle fits the horse and, if not show you where the problems are and give you options to improve the fit if possible. If the fit cannot be improved I can make recommendations and will perform a complete saddle fitting for you and your horse.
